

Safer Driving Presentations/Webinars

We offer a range of presentations and webinars designed to improve driving skills and, as a result, increase individuals safety, confidence and enjoyment when behind the wheel.

Our presentations can be tailored to suit any audience and have proved popular with organisations such as Young Farmers, u3a, WI, PROBUS and many other groups. They can be delivered either face-to-face or as a webinar via Microsoft Teams or Zoom. Generally lasting around an-hour, including questions, our trained experts offer advice in a friendly and engaging format.

'Confident Driving' is our most popular presentation and covers various aspects of driving with examples of how you can improve your driving skills and, as a result, safety and confidence when on the road. The presentation is complimented with the option of our [free advanced taster drives](#) which have proved very popular across Lincolnshire.

Hear what they say...

"Our members thoroughly enjoyed the webinar, it was a great refresher for us."

Thomas, Collingham Young Farmers

"The presentation on Confident Driving was so informative, our members learnt so much."

Pam, Horncastle u3a
